

Yanis ZERRAR

Computer Engineering Student, Cybersecurity & GRC

Risk Manager in a French metropolitan authority, where I carry out EBIOS RM risk assessments and contribute to a security governance framework aligned with ISO 27001 and NIS2. I also build security tooling and web applications end to end. Seeking a 3 to 6-month internship abroad from January 2027.

SKILLS

Cyber risk & governance
ISO 27001, ISO 27005, NIS2, EBIOS RM, Egerie Risk Manager, Risk assessment, Threat and attack scenarios, Security policies, KPI and executive reporting

Threats & security operations
Threat intelligence (MISP, OSINT), SIEM, Vulnerability management, Incident response, IAM, Active Directory

Projects & stakeholders
Project lead, ITSM (ITIL v4), Workshop facilitation, Team coordination, Awareness content, Power BI, Power Automate

Systems & networks
TCP/IP, Cisco (CCNA), Linux, Windows Server, Google Cloud (GCP), Python, PowerShell

Languages
French (native), English B2 (Linguaskill Business, Cambridge, June 2026), German B1

INTERESTS

Boxing, Cars and motorbikes, Video games

PROFESSIONAL EXPERIENCE

Cybersecurity Engineer & Risk Manager (Apprenticeship), Eurometropolis of Strasbourg — Since 09/2024

- Carried out, with guidance from the security team, the 5 EBIOS RM workshops (Egerie Risk Manager) of a risk assessment on Active Directory, from risk sources and attack scenarios through to action plans and KPIs reported to executive management.
- Contributed to building the security governance framework aligned with ISO 27001 and the NIS2 directive, drafting security policies and remediation plans.
- Performed an Active Directory password security audit, delivering technical findings, recommendations and executive material to the CISO.
- Managed vulnerabilities across the information system, from patch tracking to risk-based prioritisation.
- Built an internal security alert triage platform integrating several tools, and act as its project lead in the ITSM tool (ITIL v4), from development to production.
- Cut phishing incident handling time by 25% by streamlining the incident response process.
- Rewrote the intranet password awareness page (ANSSI guidance) and created a SCORM awareness module issuing a completion certificate.

Head of IT (Association), CyberV — Since 10/2024

- Lead the IT unit's technical projects and coordinate a team of volunteers.
- Design and run public workshops on threat intelligence and open source investigation (MISP, OSINT).
- Delivered the association's website end to end (Laravel, CI/CD) and ran SAST analyses to fix application vulnerabilities.
- Manage access and identities (IAM) on Google Cloud (GCP) infrastructure.

Data Intern, Forvia Faurecia — 04/2024 to 06/2024

- Migrated Excel-based tracking to SharePoint with VBA-driven table management, centralising data and reducing manual entry errors.
- Automated team notification workflows through Power Automate, removing manual follow-up.

EDUCATION

UTBM, Master's-level Engineering Degree in Computer Science — 2024 to 2027 (ongoing)
Major in Networks & Cybersecurity, CTI-accredited Diplôme d'ingénieur

IUT Nord Franche-Comté, DUT in Networks & Telecommunications — 2022 to 2024
Cybersecurity track

CERTIFICATIONS

Cisco CCNA
2023

ISO 27001 Lead Implementer (PECB)
In preparation, exam October 2026

ISO 27005 (PECB)
In preparation, exam November to December 2026

EBIOS Risk Manager (PECB)
In preparation, exam November to December 2026
